### **Reasons for Allowance**

2. Claims 1, 3-8, 10-15, and 17-20 are allowed. The claims will be renumbered as 1-17.

3. The following is an examiner’s statement of reasons for allowance: the instant invention allows the transferring of a known infinity homography for two images within an image sequence to other image pairs within the sequence. Upon acquisition of the image sequence, the instant invention selects one of the two images to which the known infinity homography applies and an additional image from the image sequence, and determines an intermediate transfer parameters for a homography for the selected images. Thereafter, the instant invention derives infinity homography for the selected images from the known infinity homography. These features and in combination with all of the other elements of the claims are not disclosed or fairly suggested by any of the prior art of record including the primary reference to Szeliski and the newly found prior art of Guo, et al. (6,353,678).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
